With a twinkle in his eye, Father declared that the most worthy of us all would get a spot in the spectator's seat for the upcoming Liverpool versus Manchester City football friendly match.

That spurred us to put on our best behaviour that week.
(16)

As the week drew to a close, my two brothers began to drift away from their goal. I kept up my good behaviour and went to dispose the rubbish into the big bin outside our house. As I began to replace the lid on the bin, a flash of white on the back of the black lid caught my attention. I wavered for a moment, unsure of what to make of it. Then, I lifted the flap of the envelope.
(18)

To my utter disbelief, I saw a ticket to the dream match; my hard work had been duly rewarded! This was a life lesson in responsibility that had stuck with me till today.

Study the poster (Text 1) and the extract from an article (Text 2) and answer questions 21 to 25.

Text 1

The text below shows a poster for a clinic.

**DO YOU
SLEEP
ENOUGH?**

Nearly 3 in 4 teenagers are constantly sleep-deprived!

Teens need 8 to 9 hours of sleep a night. However, they're getting only an average of 7 hours. Poor sleep in young people is linked to mental health problems and impulsive behaviour. Sleep-deprived adolescents are also less likely to retain new information.

If you need help, speak to Dr Christine Lee regarding any sleep issues. Make an appointment on our website today!

Text 2

The extract below is taken from an article about sleep.

Sleep is a vital part of our daily lives, serving as a foundation for physical and mental health. During sleep, our bodies repair tissues, strengthen the immune system and consolidate memories.

To improve sleep quality, try keeping a consistent sleep schedule by going to bed and waking up at the same time every day. Create a relaxing bedtime routine to wind down, such as reading or taking a warm bath. Make sure your sleep environment is comfortable, cool and dark.

Limit exposure to screens and bright lights before bed as they can interfere with your body's natural sleep-wake cycle. Additionally, avoid caffeine and heavy meals close to bedtime.

Prioritising these habits can help ensure a restful night's sleep and overall well-being.

You can manage your sleeping habits! It's in your hands! 😊

BLANK PAGE

For each question from 21 to 25, choose the best answer. Shade your answer (1, 2, 3 or 4) on the Optical Answer Sheet. (5 marks)

- 21** "Do you sleep enough?" The question in Text 1 aims to _____.
- (1) make readers reflect on their sleeping habits
 - (2) persuade readers to improve their sleep schedule
 - (3) warn the reader about the dangers of sleep deprivation
 - (4) emphasise to the reader the importance of sleeping well
- 22** Why do you think the image in Text 1 is being used in this poster?
It is to _____.
- (1) evoke emotions
 - (2) convey a clearer message
 - (3) replace the need for words
 - (4) introduce Dr Christine Lee
- 23** According to Text 1, which of the following statements is true?
- (1) It is natural for teens to be impulsive.
 - (2) Teens only need 7 hours of sleep a day.
 - (3) A small percentage of teens have sleep-related issues.
 - (4) Well-rested teens are more likely to remember what they learn.
- 24** To address our sleep issues, we cannot trust Text 1 because Text 2 states that _____.
- (1) only doctors can help to fix the problem
 - (2) we can manage our sleep issues on our own
 - (3) our bodies can repair our tissues throughout the day
 - (4) exposure to lights may help our bodies to adapt to a better sleep-wake cycle
- 25** Both Text 1 and Text 2 agree that _____.
- (1) sleep is important for our mental health
 - (2) keeping to a relaxing bedtime routine is essential
 - (3) everyone should have a consistent sleep schedule
 - (4) getting enough sleep strengthens our immune system

Please note that the passage for Comprehension questions 66 to 75 in Booklet B is on the next page. You may now go on to Booklet B.

Refer to the passage below when you answer questions 66 to 75 in Booklet B.

It was soon after the results of the class test for the first term had been compiled. I did badly in the test, not unexpectedly. During the December holidays, my family shifted home to Pasir Ris. It was somewhat a disaster that affected my education, especially when I was taking the PSLE at the end of the year. There was too much fun for boys of my age there, from swimming, catching spiders, cycling to mischievous exploits of one sort or another. 5

My teacher, Mr Soon, was a genial person who was not very keen to use the rod. However, he wrote four words in my report book and they told it all: "Can work but lazy." It was the system then that principals would go round to each class and randomly take a look at the report books. The principal, Major John, was a retired army officer. He was about 1.8 metres tall, slim, slightly hunched and wore a thick moustache that seemed to cover his entire lip. His appearance would send shivers down the students' spines; especially if they did not meet his expectations. 10

On that fateful afternoon, Major John sat on the teacher's chair and went through the report books of the 'lucky ones' in the class. For some odd reason, my report book was on top of the pile. Then I heard my name. His voice boomed across the room, "So, you can work, but you are lazy?" That question did not call for a reply. "My boy," the principal bawled, "go to my office. Next to my desk is a wooden cabinet. Open it. Hanging on the cabinet door, find the magic wand you like best and bring it back to me." 15

I did not need any prodding. I stepped out of my class and headed to his office with my heart in my mouth. In the wooden cabinet, I found six canes of various thickness, from the width of one's smallest finger to one's fat thumb. What a decision to make. How I wished the ground would open that very moment and gobble up the whole school. I had heard from other mischievous boys that the thicker the cane, the less the pain, **so I took a risk**. I walked back to class, stroking the cane which I knew would soon whip my buttocks, but what I could not guess was the number of strokes I would be given. 20

By the time I returned to class, there were about seven others who had formed a line, all having 'qualified' to experience the 'magic wand'. I was the **one** invited to take the dreaded spot first, bend down and touch my toes. Then like a first-rate magician, the principal brought the cane down on my buttocks. I almost fainted though I held back the beady tears. 25

At that instance, Major John called, "Next." It was music to my ears. I walked back to my desk. When I sat on the hard wooden chair, I shot back up into the air. Instinctively, I pressed my hands on the seat and pretended to sit, remaining in that position till the pain subsided. 30

That one stroke of the 'magic wand' changed my life. All my extracurricular activities around the neighbourhood were put on hold. It was study, study, study, homework, homework and homework almost round the clock.

When the results of the Preliminary Examination came in, there was nothing in it to make me qualify for another stroke. If Major John had not used the wand on me, I would have ended up as a dropout and my life would have been ruined. Deep in my heart, I am totally grateful to him for performing his magic. 35
